32	You will explore the cosmic collection of thermal mugs from the <b>GALAXY COLLECTION</b> series and discover the broad range of technological possibilities.	36	You will find inspirations for <b>CUSTOMISATION OF PACKAGING</b> according to customer preferences.

**Usefulness** is the most important feature of an effective advertising gift.

77%

of consumers declared that they would **keep a promotional article** because of its functional qualities

In numerous studies, a mug stands on **the podium of the most desired advertising gifts.**

Because of its usefulness and susceptibility to visual modifications, the mug has become one of **the favourite and most frequently selected products** by marketers worldwide.

59%

of decision-makers opted for the **functional** aspect of the mug

79%

appreciated its **economic value.**

Extremely durable product customisation technologies guarantee the **continuity of the marketing message** during the use of an advertising product.

70%

of respondents declare that they will make a **transaction** with the advertiser after receiving a mug (or glass).

# 87%

of the people who received a gift could quickly and properly **identify the brand** of the gift. This is also reflected in purchasing decisions.

A mug is an **inclusive and universal** advertising gift. It will prove its value even with the most precise and specific target groups.

One important element of the marketing industry is the presence of a mug in social interaction. It is frequently a participant of meetings, talks and visits. The message placed on the mug not only reaches its direct user, but also **attracts the attention** of bystanders.

A personal advertising gift creates an **emotional bond** between the user and the brand. Using the mug is connected to the pleasure of drinking your favourite coffee or tea, which builds positive associations with the brand.

With the increase in ecological awareness in the society, the mug - especially the 2Go version - has become a **symbol of the Zero Waste and Ecofriendly lifestyles**. Reusability, durability and ease of maintaining hygiene - these are the features owing to which the porcelain mug replaces its disposable competitors.

## GUARANTEE OF SAFETY

We take care of the highest quality and safety standards for a gift which is an advertising mug. Thanks to the SMETA audit based on the ETI code, we can guarantee compliance with environmental, health and safety requirements in the workplace as well as work ethics and work standards.

The products we offer along with the technologies used meet a number of standards related to durability and safety of use which has been confirmed by numerous tests by recognised institutions such as Intertek.

Our decorations undergo various durability tests. The tests are carried out by international research centres.

In response to the non-standard inquiries from our clients, we arrange individual tests of our products in order to meet market expectations to the maximum.

## FAST ORDER PROCESSING

One of the most important factors which determines a purchase is the short order processing time. Despite complicated technological processes, we guarantee a number of facilitations that support fast order processing.

**A large machine park with high throughput.**  
Over 25 000 mugs produced daily.

**Probably highest warehouse stocks of advertising ceramics in Europe.**  
Almost 5 million ceramic and porcelain products.

**Two fast order processing modes.**  
**Last Minute** – 5 working days  
**Fast Track** – 48h.

**Professional support and advice in the field of product creation and coordination of the order processing.**

## Colour customisation

Everyone makes sure their brand communication is consistent. We know that an effective advertising gift should match the brand colours. This is why, we offer our proprietary product coloring methods which allow for the full customisation. **The possibility of using a selected pantone colour is available from 24 pieces.**

Ready for a **NEW** launch?

The image is a vertical composition on a dark navy blue background. A large, circular planet with a blue and purple marbled texture is the central focus. It is partially enclosed by a white geometric frame consisting of a vertical rectangle and a horizontal rectangle at the top, with a small square cutout in the center of the top horizontal bar. Two thin, concentric white circles surround the planet. The text 'GALAXY' is written in a large, white, sans-serif font across the middle of the planet.

# MARS

capacity - 420 ml

height - 220 mm

weight - 250 g

Color:

Do you want a gift to strengthen the prestigious nature of your brand?

The Mars model, through a unique combination of a semi-matte cover finished with a stylish silver closure and body in deep metallic black color, allows the user to feel special. Thanks to its large capacity, the mug allows you to enjoy your favorite drink even longer.

# METEOR

capacity - 320 ml  
height - 207 mm  
weight - 190 g

Color:

Are you looking for a modern thermo mug that keeps the temperature even longer?

Choose Meteor, model made in vacuum insulation technology. The product is available in two elegant colors: Soft Black and Pure Silver. In addition, the body of the mug can be sprayed in any Pantone color and covered with a 3D effect print, which will strengthen your advertising message.

# MOON

capacity - 420 ml

height - 202 mm

weight - 220 g

Color:

What does the taste of your favorite leaf tea or lemonade with pieces of juicy fruit and an effective promotional gift have in common? COMFORT!

Choose the Moon vacuum flask, which by keeping the temperature even longer and having a functional strainer, allows user to uncompromisingly enjoy their favorite drink. Stylish cap in „Soft Touch“ version with a functional strap finished with a tasteful clip, will emphasize the prestigious character of the brand.

# ORION

capacity - 440 ml

height - 222 mm

weight - 240 g

Color:

Do you expect an effective promotional gift?

Thanks to vacuum insulation and easy „1-click“ opening, Orion gives the user joy and comfort of drinking at the highest level. In terms of marketing, you have the opportunity to prepare an effective advertising message by taking advantage of the Galaxy Color decoration, which allows to wrap the body of the mug with any Pantone color.

# VEGA

capacity - 310 ml

height - 180 mm

weight - 220 g

Color:

Imagine comfort of drinking without compromise.

By choosing Vega thermo mug you are guaranteed high ergonomics and comfort resulting from the use of vacuum insulation, hygienic and extremely comfortable mouthpiece made of a safe and odorless material, convenient „1-click“ opening and a lid with „Keep Open“ positioning. The model is available in attractive Soft Black color version.

# BASE OF ADVANTAGES

## Comfort of use

The double-walled construction of the body made in vacuum technology maintains the temperature and protects the user's hands. A comfortable mouthpiece, a cap with the "Keep Open" lock function - keeping the lid in a comfortable position while drinking, and easy 1-click opening (Orion and Vega) give the user joy and convenience of drinking at the highest level.

## Safety and leak proof

You don't have to worry anymore about accidentally spilling your drink. GALAXY products have a convenient closure that protects them against opening and liquid spillage. Mugs available in two handy versions of the closure lock.

## Easiness of hygiene maintenance

The hygienic mouthpiece and sealing elements made of safe and odorless plastic allow easy cleaning and maintaining purity of the product.

# BASE OF ADVANTAGES

## Marketing effectiveness

Now it's even easier to create an effective advertising message. Endless possibilities of GALAXY Color decoration allow you to wrap the body of selected models with any Pantone color, and the innovative Galaxy Digital 360 print with the 3D option will help you get the WOW effect.

## Exclusive packaging included

All products from the Galaxy collection have an elegant, black packaging, which emphasizes the value of the product and enhances the joy of receiving. There is also a possibility to produce the packaging with an individual print, which will give the gift a consistent character.

# ENSURES TEMPERATURE MAINTENANCE

HOW LONG CAN A VACUUM FLASK WITH CUP RETAIN HEAT?

TIME	TEMPERATURE
0 H	≈ 90 °C
0.5 H	≈ 83 °C
1 H	≈ 80 °C
2 H	≈ 75 °C
5 H	≈ 65 °C
8 H	≈ 56 °C
10 H	≈ 50 °C
13 H	≈ 44 °C
15 H	≈ 35 °C
20 H	≈ 23 °C

\*The temperatures listed may vary depending on the use of the vacuum flask and the ambient temperatures. Measurements have been carried out at room temperature (23 °C).

## HOW LONG CAN A VACUUM FLASK AND CUP RETAIN THE COLD TEMPERATURE?

Ice placed in a vacuum flask melts completely after about 5 hours.

\*The temperatures listed may vary depending on the use of the vacuum flask and the ambient temperatures. Measurements have been carried out at room temperature (23 °C)

# HOW TO USE

How to care for your galaxy cup to enjoy it for as long as possible?

We recommend hand washing of all parts of the cup

---

For hygiene reasons the seals can be removed and thoroughly washed, each one separately

---

While using the cup the inner walls may be covered with drink residue. We recommend the cleaning of inside of the cup with a rough sponge or brush, so that the flavours do not mix with each other

---

Washing products from the Galaxy collection in the dishwasher will cause the double-wall vacuum layer to unseal.

# UNIQUE DECORATIONS

# DIGITAL 360

Innovative digital printing technology around the product.

Advantages of the technology:

- Photographic print quality
- Convex 3D decoration effect
- Possibility to decorate 360 degree
- Print up to 10 cm high
- The possibility of using matt and glossy colors
- Easily combined with other technologies
- Short production time

# GALAXY 3D

Feel the difference between an ordinary Digital 360 print and the 3D printing technology.

- The exceptional effect will emphasise the advertising message of your brand
- Give you a unique feeling when using the mug.
- The marking method reaches up to 10 cm in height and is available from as little as 12 pieces.

# GALAXYcolor

Coloring of the outer body of the product in any Pantone color.

Advantages of the technology:

- Possibility of obtaining any Pantone color
- Glossy, matte, metallic and Soft Touch colors of surface
- Easily combined with GALAXY Digital 360 print and laser engraving.

# LASER engraver

Laser engraving is carried out on metal and plastic components.

Advantages of the technology:

- Subtle, monochrome decorative effect
- Order processing from 12 pcs.
- Low decoration costs
- Possibility of personalization on the cap of the mug and vacuum flask
- High accuracy of mapping small elements (minimum line thickness 0.1 mm).

# EXCLUSIVE PACKAGING INCLUDED

All products from the Galaxy collection have an elegant, black packaging, which emphasizes the value of the product and enhances the joy of receiving.
